Immunity to Change Apr 15 2021 Unlock your potential and finally move forward. A recent study showed that when doctors tell heart patients they will die if they don't change their habits, only one in seven will be able to follow through successfully. Desire and motivation aren't enough: even when

it's literally a matter of life or death, the ability to change remains maddeningly elusive. Given that the status quo is so potent, how can we change ourselves and our organizations? In *Immunity to Change*, authors Robert Kegan and Lisa Lahey show how our individual beliefs--along with the collective mind-sets in our organizations--combine to create a natural but powerful immunity to change. By revealing how this mechanism holds us back, Kegan and Lahey give us the keys to unlock our potential and finally move forward. And by pinpointing and uprooting our own immunities to change, we can bring our organizations forward with us. This persuasive and practical book, filled with hands-on diagnostics and compelling case studies, delivers the tools you need to overcome the forces of inertia and transform your life and your work.

On the Move to Meaningful Internet Systems: OTM 2009 Workshops Apr 27 2022 Internet-based information systems, the second covering the large-scale integration of heterogeneous computing systems and data resources with the aim of providing a global computing space. Each of these four conferences encourages researcher to treat their respective topics within a framework that incorporates jointly (a) theory, (b) conceptual design and development, and (c) applications, in particular case studies and industrial solutions. Following and expanding the model created in 2003, we again solicited and selected quality workshop proposals to complement the more "archival" nature of the main conferences with research results in a number of selected and more "avant-garde" areas related to the general topic of Web-based distributed computing. For instance, the so-called Semantic Web has given rise to several novel research areas combining linguistics, information systems technology, and artificial intelligence, such as the modeling of (legal) regulatory systems and the ubiquitous nature of their usage. We were glad to see that ten of our earlier successful workshops (ADI, CAMS, EIZN, SWWS, ORM, OnToContent, MONET, SEMELS, COMBEK, IWSSA) re-appeared in 2008 with a second, third or even fourth edition, sometimes by alliance with other newly emerging workshops, and that no fewer than three brand-new independent workshops could be selected from proposals and hosted: ISDE, ODIS and Beyond SAWSDL. Workshop - diences productively mingled with each other and with those of the main conferences, and there was considerable overlap in authors.

Journal of Character Education Jun 25 2019 The *Journal of Character Education* is the only professional journal in education devoted to character education. It is designed to cover the field—from the latest research to applied best practices. We include original research reports, editorials and conceptual articles by the best minds in our field, reviews of latest books, and other relevant strategies and manuscripts by educators that describe best practices in teaching and learning related to character education. The *Journal of Character Education* has for over a decade been the sole scholarly journal focused on research, theory, measurement, and practice of character education. This issue includes four empirical articles and a practitioner's voice section. Topics covered in this issue include different approaches to character education in the classroom (e.g., after school, reading strategies), applications to cheating, and teacher preparation.

How to Teach Nature Journaling Nov 22 2021 Expanding on the philosophy and methods of *The Laws Guide to Nature Drawing and Journaling*, John Muir Laws and Emilie Lygren have developed the first-ever comprehensive book devoted to helping educators use nature journaling as an inspiring teaching tool to engage young people with wild places. In their workshops Laws and Lygren are often asked the how-tos of teaching nature journaling: how to manage student groups in the outdoors, teach drawing skills (especially from those who profess to have none), connect journaling to educational standards, and incorporate journaling into longer lessons. This book puts together curriculum plans, advice, and in-the-field experience so that educators of all stripes can leap into journaling with their students. The approaches are designed to work in a range of ecosystems and

settings, and are suitable for classroom teachers, outdoor educators, camp counselors, and homeschooling parents. Full-color illustrations and sample journal pages from notable naturalists show how to put each lesson into practice. Field-tested by over a hundred educators, this book includes dozens of activities that easily support the Common Core and the Next Generation Science Standards--and, just as important, it will show kids and mentors alike how to recognize the wonder and intrigue in their midst.

Keeping a Nature Journal, 3rd Edition Apr 03 2020 Originally published in 2000 with endorsements from E.O. Wilson and Jane Goodall, Clare Walker Leslie's *Keeping a Nature Journal* was at the forefront of the nature observation and journaling movement. Leslie's approach has long been acclaimed for its accessible style of teaching people to see, witness, and appreciate the wonders of nature, and her classic guide is still used by individuals, groups, and educators ranging from

elementary school teachers to college-level instructors. The third edition features more of Leslie's step-by-step drawing techniques, a new selection of pages from her own journals (which she's kept for 40 years), and an expanded range of prompts for observing particular aspects of the natural world in any location. With an emphasis on learning to see and observe, Leslie shows how drawing nature doesn't require special skills, artistic ability, or even nature knowledge, and it is a tool everyone can use to record observations and experience the benefits of a stronger connection to the natural world.
