**Pictures of the Mind** Apr 29 2022 “An engaging and compelling read that illustrates how the new brain science can help us understand elements of our basic humanity.” Zindel Segal, Author of *The Mindful Way through Depression* and Cameron Wilson Chair in Depression Studies at the University of Toronto and the Centre for Addiction and Mental Health “Miriam Boleyn-Fitzgerald has given us a remarkably clear and engaging account of the ways that the new brain imaging technologies can give us deep insights into our gravest maladies. Her conclusion, that healing may often lie with us, joins science with the wisdom of the ages.” Jonathan D. Moreno, Author of *Mind Wars*, David and Lyn Silfen University Professor, and Professor of Medical Ethics and of History and Sociology of Science at the University of Pennsylvania Who are we? What's going on inside us when we think, feel, hope, or imagine? Can we change? Can we become happier, smarter, healthier, more altruisticâ€”better? For thousands of years, people have wondered about questions like these. Now, using the latest brain scanning technologies, neuroscientists can watch your brain at workâ€”and they're amazed by what they're seeing. Now, you can see it, too. *Pictures of the Mind* presents the images that are revolutionizing neuroscience and offers you a personal tour of the frontiers of brain research. You'll discover why scientists are becoming increasingly excited about your brain's abilities to keep growing, learning, changing, and healing, all through life. You'll follow cutting-edge researchers as they blaze new trails toward potential cures for everything from depression to dementia and brain injury to addiction. And you'll preview what could become the greatest scientific revolution of all: the one that finally explains mind, emotion, and consciousness.

**Pictures of Innocence** Feb 13 2021 The ideal of childhood innocence is perhaps the most cherished concept of modern Western culture, all the more so because it seems to be under siege. Pictures have always been crucial to that ideal, and now they promise to transform it. *Pictures of Innocence* begins by tracing the visual history of ideal childhood: the pictorial invention of childhood innocence in eighteenth-century portraits, its diffusion in nineteenth-century popular paintings and illustration, and its culmination in today's best-selling and most widely practiced forms of photography. It deals with pictures of many sorts, ranging from eighteenth-century portraits by Sir Joshua Reynolds to greeting cards by Anne Geddes, from the controversial photographs of Lewis Carroll to those of Sally Mann. The book then turns to the crisis in the ideal of childhood innocence. Ever since its invention, photography has unsettled the certainties of ideal childhood, not only by revealing its inherent tensions, but also by showing how the uses and interpretations of photography can eroticize children. These increasingly acute difficulties have recently provoked a dramatic reaction in the form of sweeping child pornography laws. At an intersection between the history of ideas, art, popular culture, censorship, and law, *Pictures of Innocence* shows how we are in the midst of a radical redefinition of childhood itself, a turbulent change in fundamental cultural values inaugurated by images.

**The Book with No Pictures** Nov 05 2022 A #1 New York Times bestseller, this innovative and wildly funny read-aloud by award-winning humorist/actor B.J. Novak will turn any reader into a comedian—a perfect gift for any special occasion! You might think a book with no pictures seems boring and serious. Except . . . here's how books work. Everything written on the page has to be said by the person reading it aloud. Even if the words say . . . BLORK. Or BLUURF. Even if the words are a preposterous song about eating ants for breakfast, or just a list of astonishingly goofy sounds like BLAGGITY BLAGGITY and GLIBBITY GLOBBITY. Cleverly irreverent and irresistibly silly, *The Book with No Pictures* is one that kids will beg to hear again and again. (And parents will be happy to oblige.)

*Pictures of Perfection* Aug 22 2021 In this “tour de force” of a mystery, the British detectives investigate a disappearance in a deceptively idyllic Yorkshire village (San Diego Union-Tribune). Reginald Hill “raised the classical British mystery to new heights” when he introduced pugnacious Yorkshire Det. Inspector Andrew Dalziel and his partner, the callow Sgt. Peter Pascoe (The New York Times Book Review). Their chafing differences in education, manners, technique, and temperament made them “the most remarkable duo in the annals of crime fiction” (Toronto Star). Adapted into a long-running hit show for the BBC, the Gold Dagger Award-winning series is now available as ebooks. It's the Day of Reckoning in the village of Enscombe, a two-day celebration among locals to feast and to pay old debts. When Enscombe's constable vanishes, it's time for Dalziel and Pascoe to upend the party. At first they're confronted with what appear to be only niggling hiccups in the enclave: break-ins, a vicar with a lustful bent, and family feuds. But as Enscombe's past comes into focus, the investigators begin to see a bigger crack in the picture-perfect village. Now, in this season when misdeeds must not go unpunished, reckoning will indeed be paid. And it may already be too late for Dalziel and Pascoe to change the course of local history. *Pictures of Perfection* is the 15th book in the Dalziel and Pascoe Mysteries, but you may enjoy reading the series in any order.

*What Do Pictures Want?* Mar 17 2021 Why do we have such extraordinarily powerful responses toward the images and pictures we see in everyday life? Why do we behave as if pictures were alive, possessing the power to influence us, to demand things from us, to persuade us, seduce us, or even lead us astray? According to W. J. T. Mitchell, we need to reckon with images not just as inert objects that convey meaning but as animated beings with desires, needs, appetites, demands, and drives of their own. *What Do Pictures Want?* explores this idea and highlights Mitchell's innovative and profoundly influential thinking on picture theory and the lives and loves of images. Ranging across the visual arts, literature, and mass media, Mitchell applies characteristically brilliant and wry analyses to Byzantine icons and cyberpunk films, racial stereotypes and public monuments, ancient idols and modern clones, offensive images and found objects, American photography and aboriginal painting. Opening new vistas in iconology and the emergent field of visual culture, he also considers the importance of *Dolly the Sheep*—who, as a clone, fulfills the ancient dream of creating a living image—and the destruction of the World Trade Center on 9/11, which, among other things, signifies a new and virulent form of iconoclasm. *What Do Pictures Want?* offers an immensely rich and suggestive account of the interplay between the visible and the readable. A work by one of our leading theorists of visual representation, it will be a touchstone for art historians, literary critics, anthropologists, and philosophers alike. “A treasury of episodes—generally overlooked by art history and visual studies—that turn on images that ‘walk by themselves’ and exert their own power over the living.”—Norman Bryson, *Artforum*

**Pictures of Poverty** Feb 02 2020 From Charles Dickens's *Oliver Twist* to George Sims's *How the Poor Live*, illustrated accounts of poverty were en vogue in Victorian Britain. Poverty was also a popular subject on the screen, whether in dramatic retellings of well-known stories or in 'documentary' photographs taken in the slums. London and its street life were the preferred setting for George Robert Sims's rousing ballads and the numerous magic lantern slide series and silent films based on them. Sims was a popular journalist and dramatist, whose articles, short stories, theatre plays and ballads discussed overcrowding, drunkenness, prostitution and child poverty in dramatic and heroic episodes from the lives and deaths of the poor. Richly illustrated and drawing from many previously unknown sources, *Pictures of Poverty* is a comprehensive account of the representation of poverty throughout the Victorian period, whether disseminated in newspapers, illustrated books and lectures, presented on the theatre stage or projected on the screen in magic lantern and film performances. Detailed case studies reveal the intermedial context of these popular pictures of poverty and their mobility across genres. With versatile author George R. Sims as the starting point, this study explores the influence of visual media in historical discourses about poverty and the highly controversial role of the Victorian state in poor relief.
