Oreo Oct 07 2020 A pioneering, dazzling satire about a biracial black girl from Philadelphia searching for her Jewish father in New York City *Oreo* is raised by her maternal grandparents in Philadelphia. Her black mother tours with a theatrical troupe, and her Jewish deadbeat dad disappeared when she was an infant, leaving behind a mysterious note that triggers her quest to find him. What ensues is a playful, modernized parody of the classical odyssey of Theseus with a feminist twist, immersed in seventies pop culture, and mixing standard English, black vernacular, and Yiddish with wisecracking aplomb. *Oreo*, our young hero, navigates the labyrinth of sound studios and brothels and subway tunnels in Manhattan, seeking to claim her birthright while unwittingly experiencing and triggering a mythic journey of self-discovery like no other.

New Directions Sep 25 2019 The format of this monograph is three essays, which we arrived at after spending a year writing over one hundred pages of what we eventually realized was a tedious reworking of old material. So we started over determined to write something new. At first we thought this approach might not work as a coherent mono graph, which is why we chose the essay format rather than chapters. As it turns out, there is a common thread—namely the directional distance function, which also gave us our title. As you shall see, the directional distance function includes traditional distance functions and efficiency measures as special cases providing a unifying framework for existing productivity and efficiency measures. It is also flexible enough to open up new areas in productivity and efficiency analysis such as environmental and aggregation issues. That we did not see this earlier is humbling; a student at a recent conference raised his hand and asked 'Why didn't you start with the directional distance function in the first place? In deed. This manuscript is intended to make up for our earlier oversights. This monograph contains papers coauthored with Wen-Fu Lee and Osman Zaim and one paper written by two former students, Hiroyuki Fukuyama and Bill Weber. We thank them for their contributions. An other former student, Jim Logan (Logi) read and critiqued the manuscript for which we are grateful.

Night Train May 26 2022 Brevity is the soul of beauty in these tiny masterworks of short short fiction Gorgeously translated by Lydia Davis, the miniature stories of A. L. Snijders might concern a lost shoe, a visit with a bat, fears of travel, a dream of a man who has lost a glass eye: uniting them is their concision and their vivacity. Lydia Davis in her introduction delves into her fascination with the pleasures and challenges of translating from a language relatively new to her. She also extols Snijders's "straightforward approach to storytelling, his modesty and his thoughtfulness." Selected from many hundreds in the original Dutch, the stories gathered here—humorous, or bizarre, or comfortingly homely—are something like daybook entries, novels-in-brief, philosophical meditations, or events recreated from life, but—inhabiting the borderland between fiction and reality—might best be described as autobiographical mini-fables. This morning at 11:30, in the full sun, I go up into the hayloft where I haven't been for years. I climb over boxes and shelving, and open the door. A frightened owl flies straight at me, dead quiet, as quiet as a shadow can fly, I look into his eyes—he's a large owl, it's not strange that I'm frightened too, we frighten each other. I myself thought that owls never move in the daytime. What the owl thinks about me, I don't know.

By the Waters of Manhattan Nov 07 2020 *By the Waters of Manhattan* was Charles Reznikoff's first novel, published in 1930 by Charles Boni in New York. Part family saga, part bildungsroman, and part unrequited love story, the novel follows the lives of a Jewish family at the turn of the century from Elizavetgrad, Russia to Brownsville, Brooklyn, birthplace of the novel's protagonist, Ezekiel, a young poet in search of ways to feed his stomach and his soul. Like Walt Whitman, Hart Crane, and Henry Roth, Reznikoff's subject is as much the great island of Manhattan, as it is its inhabitants.

Cormac McCarthy Aug 05 2020 Even before Harold Bloom designated *Blood Meridian* as the Great American Novel, Cormac McCarthy had attracted unprecedented attention as a novelist who is both serious and successful, a rare combination in recent American fiction. Critics have been quick to address McCarthy's indebtedness to southern literature, Christianity, and existential thought, but the essays in this collection are among the first to tackle such issues as gender and race in McCarthy's work. The rich complexity of the novels leaves room for a wide variety of interpretation. Some of the contributors see racist attitudes in McCarthy's views of Mexico, whereas others praise his depiction of U.S.-Mexican border culture and contact. Several of the essays approach McCarthy's work from the perspective of ecocriticism, focusing on his representations of the natural world and the relationships that his characters forge with their geographical environments. And by exploring the author's use of and attitudes toward language, some of the contributors examine McCarthy's complex and innovative storytelling techniques.

Nazi Literature in the Americas May 02 2020 A "biographical dictionary" gathering 30 brief accounts of poets, novelists and editors (all fictional) who espouse fascist or extremely right-wing political views. *Nazi Literature in the Americas* was the first of Roberto Bolaño's books to reach a wide public. When it was published by Seix Barral in 1996, critics in Spain were quick to recognize the arrival of an important new talent. The book presents itself as a biographical dictionary of American writers who flirted with or espoused extreme right-wing ideologies in the twentieth and twenty-first centuries. It is a tour de force of black humor and imaginary erudition. *Nazi Literature in the Americas* is composed of short biographies, including descriptions of the writers' works, plus an epilogue ("for Monsters"), which includes even briefer biographies of persons mentioned in passing. All of the writers are imaginary, although they are all carefully and credibly situated in real literary worlds. Ernesto Pérez Masón, for example, in the sample included here, is an imaginary member of the real Orígenes group in Cuba, and his farcical clashes with José Lezama Lima recall stories about the spats between Lezama Lima and Virgilio Pinera, as recounted in Guillermo Cabrera Infante's *Mea Cuba*. The origins of the imaginary writers are diverse. Authors from twelve different countries are included. The countries with the most representatives are Argentina (8) and the USA (7).

New Directions in Elite Studies Jul 04 2020 Since the financial crisis, the issue of the 'one percent' has become the centre of intense public debate, unavoidable even for members of the elite themselves. Moreover, inquiring into elites has taken centre-stage once again in both journalistic investigations and academic research. *New Directions in Elite Studies* attempts to move the social scientific study of elites beyond economic analysis, which has greatly improved our knowledge of inequality, but is restricted to income and wealth. In contrast, this book mobilizes a broad scope of research methods to uncover the social composition of the power elite – the 'field of power'. It reconstructs processes through which people gain access to positions in this particular social space, examines the various forms of capital they mobilize in the process – economic, but also cultural and social capital – and probes changes over time and variations across national contexts. Bringing together the most advanced research into elites by a European and multidisciplinary group of scholars, this book presents an agenda for the future study of elites. It will appeal to all those interested in the study of elites, inequality, class, power, and gender inequality.

Hurricane Season Jul 24 2019 Shortlisted for the 2020 International Booker Prize Now in paperback, Fernanda Melchor's *Hurricane Season* is "a bilious, profane, blood-spattered tempest of rage" (*The Wall Street Journal*), that casts "a powerful spell" (NPR): "a narrative that not only decries an atrocity but embodies the beauty and vitality it perverts" (*The New York Times*) *The Witch is dead*. And the discovery of her corpse has the whole village investigating the murder. As the novel unfolds in a dazzling linguistic torrent, with each unreliable narrator lingering on new details, new acts of depravity or brutality, Melchor extracts some tiny shred of humanity from these characters—innies whom most people would write off as irredeemable—forming a lasting portrait of a damned Mexican village. Like Roberto Bolaño's *2666* or Faulkner's novels, *Hurricane Season* takes place in a world saturated with mythology and violence—real violence, the kind that seeps into the soil, poisoning everything around: it's a world that becomes more and more terrifying the deeper you explore it.

Masculinity Studies & Feminist Theory Dec 21 2021 Looking at literature, film and classroom practices the authors examine the ways male privilege and power are constituted and represented, and the effect of such constructions on men and women. Developing Culturally Relevant Leadership Learning Nov 27 2019 The notion of culturally relevant leadership learning builds upon the ideas of developing leader identity and leadership capacity of diverse students. Focusing on four areas of leadership learning: education, training, development, and engagement, this volume presents a model of culturally relevant leadership learning in order to develop all student leaders. It proposes infusing the leadership development process with an understanding of how systemic oppression influences educational contexts and with an engagement in and across cultural differences. Our contexts and differences influence knowledge of self, others, cultural contexts and systems, and ultimately students' knowledge and enactment of leadership. To this end, culturally relevant leadership development programs equip all students with the knowledge and skills to navigate diverse settings and lead culturally diverse groups and teams. Transforming the framework for how leadership programs are designed will result in contextually relevant leadership development programs and an increase in the breadth and depth of a diverse leadership cadre for our society. The Jossey-Bass quarterly report series *New Directions for Student Leadership* explores leadership concepts and pedagogical topics of interest to high school and college leadership educators. Issues are grounded in scholarship and feature practical applications and best practices in youth and adult leadership education.

The New Directions Anthology of Classical Chinese Poetry Jul 28 2022 A groundbreaking anthology of classical Chinese translations by giants of Modern American poetry. A rich compendium of translations, *The New Directions Anthology of Classical Chinese Poetry* is the first collection to look at Chinese poetry through its enormous influence on American poetry. Weinberger begins with Ezra Pound's *Cathay* (1915), and includes translations by three other major U.S. poets William Carlos Williams, Kenneth Rexroth, Gary Snyder and an important poet-translator-scholar, David Hinton, all of whom have long been associated with *New Directions*. Moreover, it is the first general anthology ever to consider the process of translation by presenting different versions of the same poem by various translators, as well as examples of the translators rewriting themselves. The collection, at once playful and instructive, serves as an excellent introduction to the art and tradition of Chinese poetry, gathering some 250 poems by nearly 40 poets. The anthology also includes previously uncollected translations by Pound; a selection of essays on Chinese poetry by all five translators, some never published before in book form; Lu Chi's famous "Rhymeprose on Literature" translated by Achilles Fang; biographical notes that are a collage of poems and comments by both the American translators and the Chinese poets themselves; and also Weinberger's excellent introduction that historically contextualizes the influence Chinese poetry has had on the work of American poets.

New Directions in Congressional Politics Aug 24 2019 As the U.S. Congress has steadily evolved since the Founding of our nation, so too has our understanding of the institution. The second edition of *New Directions in Congressional Politics* offers an accessible overview of the current developments in our understanding of America's legislative branch. Jamie L. Carson and Michael S. Lynch help students bridge the gap between roles, rules, and outcomes by focusing on a variety of thematic issues: the importance of electoral considerations, legislators' strategic behavior to accomplish objectives, the unique challenges of Congress as a bicameral institution in a polarized environment, and the often-overlooked policy outputs of the institution. This book brings together leading scholars of Congress to provide a general overview of the entire field. Each chapter covers the cutting-edge developments on its respective topic. As the political institution responsible for enacting laws, the American public regularly looks to the U.S. Congress to address the important issues of the day. The contributors in this volume help explain why staying atop the research trends helps us better understand these issues in the ever-changing field of American politics. New to the Second Edition New and updated chapters highlighting party recruitment, redistricting, women in Congress, the nationalization of Congressional elections, and the reassertion of Congressional oversight. A first look at Congressional-executive relations in the Trump era. Updated data through the 2018 Midterm elections.

Ins and Outs of the Forest Rivers Aug 17 2021 Nathaniel Tarn's magnificent new collection of poems "Ins and Outs of the Forest Rivers" reverberates like a trumpet blast to the present generation. His book opens with a majestic prelude ("as if this moment were ageless and could always return") and is followed by four sections: "Of the Perfected Angels," with its moving meditation on the Issenheim altarpiece by Matthias Grunewald; "Dying Trees," written out of the loss of thousands and thousands of trees throughout the American West in recent years; "War Stills," an engagement with the ongoing atrocities in Iraq; and the final section, "Movement/The North of The Java Sea," that snakes its way through the rivers and the indigenous anguish of Borneo, where Tarn as poet-anthropologist surveyed the loss of forest lands and its effects on tribal peoples. Reflective, conversational, at times humorous, and always profound, "Ins and Outs of the Forest Rivers" is Tarn's most compelling collection to date.

Our Riches Sep 05 2020 The powerful English debut of a rising young French star, *Our Riches* is a marvelous, surprising, hybrid novel about a beloved Algerian bookshop. *Our Riches* celebrates quixotic devotion and the love of books in the person of Edmond Charlot, who at the age of twenty founded *Les Vraies Richesses* (Our True Wealth), the famous Algerian bookstore/publishing house/lending library. He more than fulfilled its motto "by the young, for the young," discovering the twenty-four-year-old Albert Camus in 1937. His entire archive was twice destroyed by the French colonial forces, but despite financial difficulties (he was hopelessly generous) and the vicissitudes of wars and revolutions, Charlot (often compared to the legendary bookseller Sylvia Beach) carried forward *Les Vraies Richesses* as a cultural hub of Algiers. *Our Riches* interweaves Charlot's story with that of another twenty-year-old, Ryad (dispatched in 2017 to empty the old shop and repaint it). Ryad's no booklover, but old Abdallah, the bookshop's self-appointed, nearly illiterate guardian, opens the young man's mind. Cutting brilliantly from Charlot to Ryad, from the 1930s to current times, from WWII to the bloody 1961 Free Algeria demonstrations in Paris, Adimi delicately packs a monumental history of intense political drama into her swift and poignant novel. But most of all, it's a hymn to the book and to the love of books.

Developing Social Justice Allies Jun 22 2019 The fiftieth anniversary of the *Brown v. Board of Education* decision (1954) called us as student affairs professionals to reconsider and reaffirm our commitment to social justice. This issue is a call to action to student affairs professionals who are working as social justice allies, those with a commitment to make their college campuses a place where all community members are respected, validated, and fostered in developing their full potential. This issue encourages the development of ally attitudes and action in both students and student affairs colleagues. It first presents the conceptual foundation for social justice ally development and then covers in depth the strategies for the development of social justice behaviors in specific dominant group members. In each case, we have intentionally enlisted voices of authors who identify with the dominant and target groups on which the chapter focuses. This is the 110th volume of the Jossey-Bass higher education quarterly report series *New Directions for Student Services*. An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals, *New Directions for Student Services* offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual.

The Setting Sun Jun 26 2022 This powerful novel of a nation in social and moral crisis was first published by *New Directions* in 1956. Set in the early postwar years, it probes the destructive effects of war and the transition from a feudal Japan to an industrial society. Ozamu Dazai died, a suicide, in 1948. But the influence of his book has made "people of the setting sun" a permanent part of the Japanese language, and his heroine, Kazuko, a young aristocrat who deliberately abandons her class, a symbol of the anomie which pervades so much of the modern world.
