OCR(B) A2 Chemistry (Salters) Student Unit Guide: Unit F335 Chemistry by Design Apr 30 2020 Student Unit Guides are perfect for revision. Each guide is written by an examiner and

explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to

exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.

successful series of AS and A2 revision guides, this guide will help your students prepare for their exams. The specification-matched guide shows students what they need to revise for each exam. A concept-led approach helps students pull together the physics ideas in the course and apply them to fresh contexts in exam questions. Revision is made manageable - all the concepts are linked to the types of question that students will actually face in the exam. Students gain vital advice on how to answer different types of question - and how to avoid common pitfalls.
