Teaching Reading to English Learners, Grades 6 - 12 Mar 15 2021 Retool your whole school for EL achievement For any student, middle and high school can be challenging. But for

an English learner or striving reader—and the myriad words, phrases, syntax, texts, and concepts they must negotiate on a daily basis—the stakes seem a whole lot higher. Fortunately for content-area teachers, Margarita Calderón and Shawn Slakk make available in a single resource all the best instructional and professional development combinations for expediting comprehension across the secondary grades. Really a tool to assist all learners across all language needs, the second edition of *Teaching Reading to English Learners, Grades 6-12*, provides evidence-based strategies for helping content-area teachers and schools at large: Teach academic language in all subject areas Embed discourse practice through interaction strategies Integrate basic and close reading comprehension skills into lessons Teach drafting, revising, and editing for content-specific writing Use cooperative learning to develop social emotional skills and enhance academic achievement Calderón and Slakk know firsthand that if we're to counter the commonly held narrative of predictable failure among our ELs, it takes a whole school, and they have the evidence to prove it. Read *Teaching Reading to English Learners, Grades 6-12*, implement its strategies across all classrooms, and soon enough you, too, will maximize the comprehensions skills so critical to our ELs' long-term success.

Hosea Jul 07 2020 In this commentary Old Testament scholar Bo Lim and theologian Daniel Castelo work together to help the church recover, read, and proclaim the prophetic book of Hosea in a way that is both faithful to its message and relevant to our contemporary context. Though the book of Hosea is rich with imagery and metaphor that can be difficult to interpret, Lim and Castelo show that, with its focus on corporate and structural sin, Hosea contains a critically important message for today's church.

Reading Response Forms Big Book Gr. 1-6 Oct 02 2022 All of our content is aligned to your State Standards and are written to Bloom's Taxonomy. Students will eagerly share their impressions about literature with our unique skill based Reading Response Forms. Each book in the series contains 36 worksheets that are engaging, purposeful and graded appropriately. Encourage all students to think more about what they read and confidently share their observations and opinions. Each worksheet focuses on one of the following skills based on Bloom's Taxonomy: remembering, understanding, applying, analysing, evaluating, and creating. Also included is a detailed implementation guide, selection of hands-on activities, student assessment rubric, word puzzles, comprehension quiz, and test prep. The color graphic organizers will assist the introduction of the skill focus and in guiding your students through the thought process to complete an introductory sheet. These materials may supplement your present reading program or be used for independent student work.

Students gain regular practice through these quick, yet meaningful, reading activities. Great formative assessment tool!

Shifting the Balance Jul 27 2019 These days, it seems that everyone has a strong opinion about how to teach young children to read. Some may brush off the current tension as nothing more than one more round of "the reading wars." Others may avoid the clash altogether due to the uncivilized discourse that sometimes results. Certainly, sorting the signal from the noise is no easy task. In this leading-edge book, authors Jan Burkins and Kari Yates address this tension as a critical opportunity to look closely at the research, reevaluate current practices, and embrace new possibilities for an even stronger enactment of balanced literacy. From phonological processing to brain research to orthographic mapping to self-teaching hypothesis, *Shifting the Balance* cuts through the rhetoric (and the sciencey science) to offer readers a practical guide to decision-making about beginning reading instruction. The authors honor the balanced literacy perspective while highlighting common practices to reconsider and revise--all through a lens of what's best for the students sitting in front of us. Across six shifts, each chapter identifies a common instructional practice to reconsider explores various misunderstandings that establish and keep that practice in play shares scientific research to support its reconsideration proposes an instructional shift to apply a new perspective, and details several high-leverage instructional routines to support implementation of that shift. By pinpointing gaps and overlaps--as well as common misunderstandings and missed opportunities between the competing lines of thought--Jan and Kari offer busy educators direction and clarification for integrating science and balance into their daily instruction, while keeping meaningful experiences with text a priority.
